

SHAREPOINT™ - RAPID SOLUTION OFFERINGS FOR BC GOVERNMENT

ITI is now offering a set of unique SharePoint-based offerings designed especially for BC Government

1) SHAREPOINT GOVERNANCE CONSULTING

- Deliverable #1: Review of a Ministry's SharePoint standards (as they have evolved and as they exist today)
- Deliverable #2: A recommendation for SharePoint content management, standards and general BC Government "best practice" and "good governance" approaches

2) SHAREPOINT HEALTH-CHECK

- Deliverable #1: a comprehensive inventory and audit of each and every SharePoint site in scope
- Deliverable #2: a detailed recommendation on how to substantially benefit from the imminent WTS move to SharePoint 2007 in summer, 2009

3) CITICUS SUPPORT SITE

- Deliverable #1: a SharePoint Template and site uniquely designed for a Ministry's CITICUS data collection project
- Deliverable #2: a set of SharePoint processes and workflows for the CITICUS data collection project

4) NON-STANDARD / UNSUPPORTED APPLICATION INVENTORY

- Deliverable #1: a SharePoint site designed to allow a Ministry to create an inventory of unsupported or non-standard applications (e.g., Fortran, dBASE, Excel, Access, etc.)
- Deliverable #2 : 1-2 week SharePoint-based data collection project to inventory all unsupported or non-standard applications being used in the Ministry

5) CONSTRUCTION SITE PROJECT MANAGERS' SAFETY TOOL KIT

- Deliverable #1: a SharePoint Template designed for Project Safety and Hazard Analysis for construction projects, based on the latest construction industry standards
- Deliverable #2: a SharePoint site implemented with specially-customized safety and hazard checklists, unique to that construction project
